SUMMARY

Aspiring Data Analyst and ML Engineer with hands-on experience in Python, machine learning, data analysis, and mobile application development. Skilled in building end-to-end solutions across data science, web, and Android domains using Python, Flask, Flutter, and Scikit-learn.

TECHNICAL SKILLS

Programming: Python, Dart, JavaScript, HTML, CSS, SQL

Frameworks & DB: Flask, Flutter, MySQL

Data & ML: Pandas, NumPy, Scikit-learn, K-Means Clustering, Classification, EDA

Tools: Matplotlib, Seaborn, Microsoft Excel, Jupyter Notebook, Git, GitHub, VS Code, Android Studio

EXPERIENCE

Python Developer Intern

Jan 2026 – Mar 2026

Mageba Bridge Products Private Ltd.

India

- Developed a full-stack **PR Management System** using **Flask** and **MySQL** to streamline pull request tracking and workflow management.
- Designed RESTful APIs in Python/Flask; built dynamic Jinja2 templates integrating end-to-end data flow between UI and relational database.

PROJECTS

Women Safety App *(In Progress)* | Flutter, Dart, Android

- Building an Android safety app using **Flutter** with real-time SOS alerts, live GPS location sharing, and emergency contact notifications.
- Implementing background location services to ensure reliable alert delivery in critical situations.

Potato Leaf Disease Detection | Python, Scikit-learn, Image Processing

- Built an ML classification pipeline on image data to detect potato leaf diseases using preprocessing and supervised learning.

Customer Segmentation | Python, Scikit-learn, K-Means Clustering

- Applied K-Means clustering on purchase behavior data; optimized clusters via Elbow Method and visualized segments for business insights.

Stock Market Analysis | Python, Pandas, Matplotlib, Microsoft Excel

- Performed EDA on historical stock datasets; engineered time-series visualizations including moving averages to surface price patterns.

Social Media Trend Analysis | Python, Pandas, Matplotlib

- Analyzed social media datasets to discover trending topics and engagement patterns via data cleaning, aggregation, and visualization.

Live Code Editor | HTML, CSS, JavaScript

- Built a browser-based live code editor with real-time HTML/CSS/JS preview and split-pane UI using vanilla JavaScript.

EDUCATION

Master of Computer Applications (MCA)

Oct 2024 – Present

B.P. Poddar Institute of Management and Technology

India

Bachelor of Science in Computer Applications (B.Sc. CA)

June 2020 – July 2023

Patna University

India

- CGPA: 8.29 / 10.0

CERTIFICATIONS

Oracle Certified AI Foundations Associate | Oracle, Nov 2025

GenAI Powered Data Analytics Simulation | Forage, Jul 2025

Machine Learning Using Python | Simplilearn, Sep 2025

Introduction to SQL | Simplilearn, Nov 2022
